

Dunedin Cable Car Trust

An update so far this year...

Items in this newsletter:

- Questionnaire results collated
- Website now up and running
- Facebook Page
- Sub-Committees require volunteers!
- Members required to start up an Incorporated Society
- Major 'public launch' planned for 2013
- Otago Settlers Museum takes delivery of Roslyn Tram 01
- Restoration of Mornington 111 continues at Ferrymead

Welcome to the latest issue of the Dunedin Cable Car Trust newsletter. This will give you all an update as to what we have planned in the coming few months and beyond.

Remember, this is a NOT-FOR PROFIT community-based project and we want EVERYONE who is interested to feel that they are a valued part of this visionary project. For details of how you can be a part...please read on!

The San Francisco MUNI Cable Car operation has proved time after time that they can attract regular users as well as visitors and tourists, making the Cable Car an iconic part of San Francisco.

"Cable Cars worked wonderfully 100 years ago when we didn't have cheap oil... it may be a case of back to the future, but Dunedin has an opportunity to learn from its past to prepare for its future..."

Associate Professor Dr Philip Laird

Questionnaire Responses – General Comments

- ‘A Marvelous addition to Dunedin’s Transport system’
- ‘Brilliant idea – long time in coming!’
- ‘I fully support it. A great idea for the City’
- ‘Go for it!’
- ‘It would be a real asset to the City; the City would be the better for it’
- ‘Would love this to happen’
- ‘A great asset for Dunedin’
- ‘Fabulous proposal – I hope it goes ahead’
- ‘A great, unique and fun asset and would love to see it happen’
- ‘Win-win situation if we have one; reflects our fine heritage’
- ‘An icon for the City; a good sustainable form of public transport’
- ‘Would look fantastic!’
- ‘Do it!’
- ‘Marvelous tourist attraction’
- ‘Great if they can transport bikes’
- ‘Wish you every success for this worthwhile project’
- ‘Something positive for Dunedin for a change’
- ‘Fantastic, bring the Cable Car back!’
- ‘I am a Walk Dunedin guide. Many visitors would love to try a cable car’

2012

The project continues to gain purposeful traction...

The questionnaire results have been collated and documented. Around 1,150 houses (within a 400 metre radius of the proposed Cable Car route) received a questionnaire and we had a response rate of 10%. All responses – except one – were positive and contained some excellent ideas and suggestions which were greatly appreciated.

We now have a website up and running along with a Facebook page (details on last page of newsletter). The Facebook page will keep anyone informed of news and progress and will also be open to questions. We will try to respond as quickly as possible!

Behind-the-scenes work continues. We have formed four sub-committees – Display Centre, Publicity, Planning & Construction, Admin & Fund-Raising – and are looking for people to help out on these sub-committees. If you feel this is something you wish to be involved in please get in touch.

We are still finding the Charities Commission very difficult to deal with in establishing our not-for-profit Trust as a Charitable Trust. We hope to have the situation resolved later this year.

“...(The Cable Car) would also demonstrate how an ‘alternative transport corridor’ could work on city roads.”

Associate Professor Dr Philip Laird

m

2012 Continued...

...the work begins in earnest...volunteers needed!

We want to form an Incorporated Society so people interested in the project from all over the world can have their say and input into the project. We require at least 12 signatures to form the society which will act independently to the Trust Board. If you would be interested in being one of the 12 please let us know!

We are planning a major 'launch' for the project in 2013. The Trust is currently planning for the event and details will be made available on the Facebook page and through this newsletter which will be sent to you monthly from now on.

It was good to see the Otago Settlers Museum take delivery of the Roslyn No.1 Tram for display when it re-opens. Work continues on the restoration of Mornington Cable Car 111 at Ferrymead which is at an advanced stage.

We will be giving three informative talks to interested groups in September. If you belong to a group who would like to hear about the re-creation of the Mornington Cable Car Project then please feel free to contact us!

A reminder of the craftsmanship that once rode on the streets of Dunedin...Mornington Trailer 111 being renovated at Ferrymead by THS 16th Aug 2012

Inside of Mornington Trailer 111 - 16th Aug 2012

If you have ANY suggestions or ideas that you think may be of use to the Cable Car project, please do not hesitate to get in touch! This is your project for your community...

The Mornington Cable Car Line

2013 will see a major 'launch' of the project in the public arena. We, as Trust Members, are under no illusions to the task ahead of us. If the project is to succeed it will require the help, assistance and goodwill of everyone involved who wants to see the project come to fruition. Please let us know if you would like to help in the re-introduction of the Cable Car to the High Street by volunteering in whatever capacity you think may be helpful!

AUGUST 2012

VOL 1 ISSUE3

Looking ahead ...

- *Call for volunteers for the sub-committee Groups.*
- *A major 'public launch' in 2013.*
- *Major fundraising effort underway.*
- *Pieces beginning to fall into place.*
